

i-FILTER® Browser & Cloud Available from KDDI

**~i-FILTER Browser & Cloud for smartphones (monthly subscription)
provided by KDDI Business Port Support Program~**

TOKYO, Japan (February 1, 2017) – Digital Arts Inc. (headquartered in Chiyoda-ku, Tokyo, Japan; CEO: Toshio Dogu; “Digital Arts”; Code 2326), a leading provider of information security software, announced that KDDI (headquartered in Chiyoda-ku, Tokyo, Japan; CEO: Takashi Tanaka; “KDDI”) has made i-FILTER Browser & Cloud, an enterprise-grade web filtering software to improve business efficiency and protect various devices from cyber threats for corporations, education institutions and the public sector, available on its enterprise SaaS solution service, Business Port Support Program, starting January 20, 2017.

With the wide penetration of smart devices, more people use their devices outside the workplace and schools. Data loss by cyber threats and accessing harmful website is a common risk today and many are moving towards implementing web filtering as an effective way to place security measures on smart devices.

As the cyber security awareness builds, the number of i-FILTER Browser & Cloud customers has increased over the years, and recently, many have requested to combine subscription fees for this service into their monthly bills issued by their cell phone carriers.

In response to these demands as well as enhancing user convenience to drive sales opportunities, Digital Arts successfully registered on KDDI’s Business Port Support Program to offer an option to combine i-FILTER Browser & Cloud fees with KDDI monthly mobile phone bills.

Digital Arts continues to contribute to enhance safety and operational efficiency by driving a secure and convenient cyber environment with i-FILTER Browser & Cloud, its leading web filtering service for smart devices.

■ **About i-FILTER Browser & Cloud** http://www.daj.jp/en/products/if_browser/

i-FILTER Browser & Cloud is a cloud-based web filtering service for businesses. Its top-of-the-line web filtering database realizes refined web access controls that match business operational needs, blocks access to websites considered inappropriate and harmful in the workplace, and increases work productivity while guarding devices against various potential threats. i-FILTER Browser & Cloud can be downloaded to your device from App Store and Digital Arts’ website, or purchased through a licensed dealer.

■ **About Digital Arts Inc.** <http://www.daj.jp/en/>

Digital Arts, Inc. is a provider of information security products with a unique patented web filtering technology at its core. It plan, develops, sells and supports internet security products on its own, while also delivering added value as the first Japanese manufacturer to launch a web filtering software in the industry. Digital Arts is highly recognized for its most comprehensive domestic web filtering database and its unique filtering technology patented in 27 countries and regions around the world. Digital Arts has become the top domestic supplier of web filter software i-FILTER (corporate and public-sectors), i-FILTER for Consumer, and i-FILTER Browser & Cloud. Other product lineup includes m-FILTER, a gateway email security software for corporations, m-FILTER MailAdviser, a client email anti-misdelivery software, D-SPA, a secure proxy appliance solution, and FinalCode, the ultimate password-less file encryption and tracking solution.
