## 1. Qualitative Information on Financial Results for the First Three Months of Fiscal Year Ending March 31, 2024

### (1) Explanation about business results

During the first three months of the consolidated fiscal year under review (April 1 through June 30, 2023), Japan experienced the normalization of its social and economic activities and a recovery in its consumption behavior following the downgrade of the legal classification of COVID-19 to Class 5. However, the outlook of the economy remained uncertain, reflecting rising prices due to the prolonged war in Ukraine and the sharp weakening of the yen against the dollar in the foreign exchange market.

In the security industry, in which the Digital Arts Group (the “Group”) operates, cyber attacks diversified and intensified, including ransomware, Emotet and Agent Tesla, which is remote control malware that steals confidential information from keyboard operations. That expanded demand for security products. Not only among large companies but also at small and medium enterprises that lag behind in security measures, demand for newly introducing security products is expanding.

In this situation, the Company enhanced the linkage and features of its mainstay products of i-FILTER, m-FILTER and FinalCode and added a broad array of security solutions to them in response to mounting needs for comprehensive security. It also worked hard to promote its original next-generation Secure Web Gateway (SWG).

In addition, as a service for realizing the vision of creating new value and increasing demand stated in the medium-term business plan, the Company released a new communications tool product called Desk ahead of the schedule set out in the initial plan.

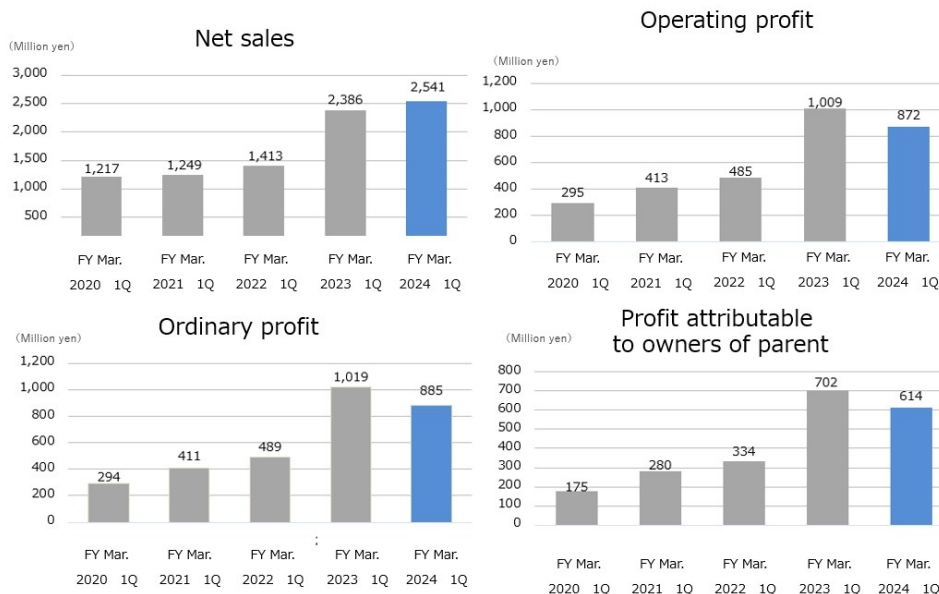

On the other hand, the Company saw increases in server expenses and personnel expenses, the former reflecting a rise in the number of licenses for cloud service products and the impact of foreign exchange rates and the latter due to a rise in the number of staff in Digital Arts Consulting Inc., its subsidiary. In addition, with the unprecedented number of new functions and new products expected to be released, the Company actively invested to promote sales events for agents and facilitate internal strategic meetings. This resulted in year-on-year increases in the cost of sales and selling, general and administrative expenses.

As a result, net sales for the first three months of the consolidated fiscal year under review stood at 2,541 million yen, up 6.5% year on year, operating profit at 872 million yen, down 13.5% year on year, ordinary profit at 885 million yen, down 13.2% year on year, and profit attributable to owners of parent at 614 million yen, down 12.4% year on year.

#### Overview of Consolidated Business Results

(Million yen)

	First three months of year ended March 31, 2023	First three months of year ending March 31, 2024	Change	% Change
Net sales	2,386	2,541	+ 155	+ 6.5
Operating profit	1,009	872	(136)	(13.5)
Ordinary profit	1,019	885	(134)	(13.2)
Profit attributable to owners of parent	702	614	(87)	(12.4)

The following describes business performance in separate markets.

#### Enterprise Sector Market

In the enterprise section market, the Group continued to promote new optional functions it released to meet rising demand for comprehensive security against the backdrop of the occurrence of extensive damage from diversifying cyberattacks, and by doing so, made steady progress in the efforts to win new projects. Sales of cloud service products increased following the acquisition of an order for a new m-FILTER project as a result of high marks given to the use of the PPAP method (sending a password-protected Zip file by e-mail and sending the password by separate e-mail) and a function to deal with targeted attacks, including attacks using Emotet. In addition, Digital Arts Consulting Inc., one of the Company's subsidiaries that offers security consulting services, increased the number of consulting staff and boosted sales by winning an ISMAP acquisition-related project and a new project in which it provides comprehensive support, including security assessment and support for the implementation of security measures.

As a consequence, net sales in this market reached 1.418 million yen, up 12.3% year on year.

#### Public Sector Market

In the public sector market, the Group won new projects for schools that had not adopted filtering, a necessary function in the GIGA School Concept, while also receiving orders for new projects by focusing on proposing solutions to support local governments' efforts to strengthen security measures.

As a consequence, net sales in this market stood at 1,016 million yen, down 0.1% year on year.

#### Consumer Sector Market

In the consumer sector market, the Group focused on collaborating with mobile network carriers and MVNOs and on sales of i-FILTER for Multiple Devices, which can be used on multiple operating systems using a single serial ID.

As a consequence, net sales in this market amounted to 106 million yen, up 0.6% year on year.

## (2) Explanation about financial position

### (Assets)

Total assets at the end of the first three months of the consolidated fiscal year under review decreased 702 million yen from the end of the previous consolidated fiscal year to 20,446 million yen.

This was due mainly to decreases of 630 million yen in cash and deposits and 220 million yen in notes and accounts receivable - trade.

### (Liabilities)

Total liabilities at the end of the first three months of the consolidated fiscal year under review declined 438 million yen from the end of the previous consolidated fiscal year to 6,537 million yen.

This was due mainly to a decrease of 542 million yen in income taxes payable.

### (Net assets)

Net assets at the end of the first three months of the consolidated fiscal year under review decreased 264 million yen from the end of the previous consolidated fiscal year to 13,909 million yen.

This was mainly due to dividends paid that outweighed an increase in retained earnings due to the recording of profit attributable to owners of parent.

## (3) Explanation about information on future forecasts such as consolidated results forecasts

Operating results for the first three months of the consolidated fiscal year under review remained steady, and there was therefore no change in the forecast of consolidated financial results for the year ending March 31, 2024 announced on May 9, 2023.

The Company has determined the results forecasts based on information available on the day of these financial results for the first three months of the year ending March 31, 2024. Actual results may be different from the forecasts due to a variety of factors. If there are any significant changes, the Company will disclose them appropriately.

### (3) Notes to consolidated financial statements

(Notes on the premise of a going concern)

There are no applicable matters.

(Notes on significant changes in the amount of shareholders' equity)

There are no applicable matters.

(Application of special accounting methods to the preparation of quarterly consolidated financial statements)

Calculation of tax expenses

With respect to the calculation of tax expenses, reasonable estimations are performed on an effective tax rate established after applying tax accounting to profit before income taxes for the consolidated fiscal year, which includes the first quarter of the consolidated fiscal year under review, and such tax expenses are calculated by multiplying this estimated effective tax rate by profit before income taxes.
