This End User License Agreement ("EULA") governs use of software ("Software") from Cloudmark, Inc. ("Cloudmark") distributed by Reseller. References to “End User” in this EULA refer to any entity or individual which has obtained a copy of the Software from Reseller. End User acknowledges that Cloudmark is an express third-party beneficiary of this EULA.

Limited License

Subject to all of the terms and conditions of this EULA, Reseller grants to End User a non-transferable, non-sublicensable, non-exclusive license to use the object code form of the Software internally, but only in accordance with the technical specification documentation generally made available with the Software and this EULA. “Software” shall also include any documentation and any support and maintenance releases of the same Software provided to End User.

Restrictions

End User shall not (and shall not allow any third party to): (a) decompile, disassemble, or otherwise reverse engineer the Software or attempt to reconstruct or discover any source code, underlying ideas, algorithms, file formats or programming interfaces of the Software by any means whatsoever (except and only to the extent that applicable law prohibits or restricts reverse engineering restrictions, and then only with prior written notice to Cloudmark); (b) distribute, sell, sublicense, rent, lease or use the Software (or any portion thereof) for time sharing, hosting, service provider or like purposes; (c) remove any product identification, proprietary, copyright or other notices contained in the Software; (d) modify or create a derivative work of any part of the Software, except to the extent expressly authorized in writing by Cloudmark; or (e) publicly disseminate performance information or analysis (including, without limitation, benchmarks) from any source relating to the Software.

Ownership

Notwithstanding anything to the contrary contained herein, except for the limited license rights expressly provided herein, Cloudmark and its suppliers have and will retain all rights, title and interest (including, without limitation, all patent, copyright, trademark, trade secret and other intellectual property rights) in and to the Software and all copies, modifications and derivative works thereof. End User acknowledges that it is obtaining only a limited license right to the Software and that irrespective of any use of the words “purchase”, “sale” or like terms hereunder no ownership rights are being conveyed to you under this Agreement or otherwise. End User acknowledges that Cloudmark has a substantial interest in the Software and that if this EULA is not directly with Cloudmark then Cloudmark is a third party beneficiary to this EULA.

If requested, End User shall certify in writing that End User is using the Software for the number of servers, with the number of copies, on the system configuration and at the site agreed upon by the parties (as applicable). End User agrees that no more than once annually its use of the Software may be audited by Reseller or Cloudmark (or and independent auditor work on such party’s behalf) during normal business hours upon reasonable advance written notice for the purpose of verifying End User’s compliance with this EULA.

Confidentiality

End User acknowledges that, it may obtain information relating to the Software or Cloudmark, including, but not limited to, any code, technology, know-how, ideas, algorithms, testing procedures, structure, interfaces, specifications, documentation, bugs, problem reports, analysis and performance information, and other technical, business, product, and data (“Confidential Information”). End User shall not disclose Confidential Information to any third party or use Confidential Information for any purpose other than the use of the Software as licensed under the EULA.

Warranty Disclaimer
EXCEPT FOR ANY 90 DAY (OR LESS) LIMITED WARRANTY AS MAY BE OFFERED BY RESELLER, WHICH WARRANTY MUST BE LIMITED TO THE SOFTWARE PERFORMING IN SUBSTANTIAL ACCORDANCE WITH THE DOCUMENTATION AND HAVE AS ITS SOLE REMEDY REPAIR, REPLACEMENT OR REFUND BY THE RESELLER.

Cloudmark does not warrant that the Software will meet all of End User’s requirements or that use of the Software will be uninterrupted or error-free. End User acknowledges that content and form of spam, viruses and phishing attempts are varied and ever-changing and that Cloudmark does not warrant that Software will filter all spam, viruses and phishing attempts or that it will not, in some cases, filter content that End User or its users may not consider to be spam, a virus or a phishing attempt.

THE SOFTWARE IS PROVIDED “AS IS” AND CLOUDMARK MAKES NO WARRANTIES TO ANY PERSON OR ENTITY WITH RESPECT TO THE SOFTWARE OR ANY SERVICES AND DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION WARRANTIES OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Limitation of Damages and Remedies

IN NO EVENT SHALL CLOUDMARK BE LIABLE UNDER CONTRACT, TORT, STRICT LIABILITY OR OTHER LEGAL OR EQUITABLE THEORY FOR ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES IN CONNECTION WITH THE SOFTWARE. NOTWITHSTANDING ANYTHING HEREIN TO THE CONTRARY, THE TOTAL LIABILITY OF CLOUDMARK TO END USER, INCLUDING BUT NOT LIMITED TO DAMAGES OR LIABILITY ARISING OUT OF CONTRACT, TORT, BREACH OF WARRANTY, INFRINGEMENT OR OTHERWISE, SHALL NOT IN ANY EVENT EXCEED THE FEES PAID BY END USER WITH RESPECT TO THE SOFTWARE. CLOUDMARK SHALL NOT BE LIABLE FOR LOSS OR INACCURACY OF DATA, COST OF PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES, SYSTEM DOWNTIME, GOODWILL, PROFITS OR OTHER BUSINESS LOSS, REGARDLESS OF LEGAL THEORY, EVEN IF CLOUDMARK HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

THE PARTIES AGREE THAT THE LIMITATIONS OF THIS SECTION ARE ESSENTIAL AND THAT CLOUDMARK WOULD NOT PERMIT END USER TO USE THE SOFTWARE ABSENT THE TERMS OF THIS SECTION. THIS SECTION SHALL SURVIVE AND APPLY EVEN IF ANY REMEDY SPECIFIED IN THIS EULA SHALL BE FOUND TO HAVE FAILED OF ITS ESSENTIAL PURPOSE.

Export Compliance

End User acknowledges that the Software is subject to export restrictions by the United States government and import restrictions by certain foreign governments. End User shall not and shall not allow any third-party to remove or export from the United States or allow the export or re-export of any part of the Software or any direct product thereof: (i) into (or to a national or resident of) any embargoed or terrorist-supporting country; (ii) to anyone on the U.S. Commerce Department’s Table of Denial Orders or U.S. Treasury Department’s list of Specially Designated Nationals; (iii) to any country to which such export or re-export is restricted or prohibited, or as to which the United States government or any agency thereof requires an export license or other governmental approval at the time of export or re-export without first obtaining such license or approval; or (iv) otherwise in violation of any export or import restrictions, laws or regulations of any United States or foreign agency or authority. End User agrees to the foregoing and warrants that it is not located in, under the control of, or a national or resident of any such prohibited country or on any such prohibited party list. The Software is further restricted from being used for the design or development of nuclear, chemical, or biological weapons or missile technology, or for terrorist activity, without the prior permission of the United States government.

Government Users

The Software is commercial computer software. If the user or licensee of the Software is an agency, department, or other entity of the United States Government, the use, duplication, reproduction, release, modification, disclosure, or transfer of the Software, or any related documentation of any kind, including technical data and manuals, is restricted by a license agreement or by the terms of this EULA in accordance with Federal
Acquisition Regulation 12.212 for civilian purposes and Defense Federal Acquisition Regulation Supplement 227.7202 for military purposes. The Software was developed fully at private expense. All other use is prohibited.

Termination and Survival

Upon any termination of this EULA, End User shall immediately cease use of the Software and remove all Software from its systems. The terms set forth in the sections entitled Restrictions, Ownership, Confidentiality, Warranty Disclaimer, Limitation of Damages and Remedies shall survive any termination of this EULA.

Data Collection and Delivery of Micro Updates

E-mail Message Filtering. Certain Software products are used to filter e-mail messages for spam or other unwanted messages. Such Software uses proprietary algorithms to generate an identifier for each e-mail message, known as a “hash”. The Software shares each hash with Cloudmark, which is then associated with Cloudmark’s database of reputation data and known problems that the Software uses to filter spam and other unwanted messages (collectively, “Reputation Data”). Each hash is generated using a one-way algorithm, which means that Cloudmark is not able to use a hash to recreate the content or data of the original e-mail message.

Mobile Message Filtering.

(a) Mobile Message Content. Certain Software products are used to filter mobile messages (e.g. SMS, MMS and other mobile message formats) for spam or other unwanted messages. Such Software will scan and share with Cloudmark the content of messages sent to End User’s end users (including the sender’s phone number, the address of the SMSC and phone numbers found within the body of the message) (the “Mobile Message Content”) to allow Cloudmark to improve Reputation Data. Cloudmark will not use Mobile Message Content for any other purpose or otherwise disclose the Mobile Message Content.

(b) Privacy Compliance. End User acknowledges that Mobile Message Content collected by the Software may contain the personally identifiable information of End User’s end users, including customer proprietary network information (“CPNI”) as defined by the Communications Act of 1934, as amended, (47 U.S.C. § 151 et seq.) and the orders, rules, regulations and other directives of the Federal Communications Commission, as may be amended from time to time. As between End User and Cloudmark, End User shall be responsible for obtaining the necessary clearances, consents, and approvals from its end users under all applicable laws or regulations (i) for End User to collect Mobile Message Content and distribute Mobile Message Content or other end user data to Cloudmark, (ii) for Cloudmark to use Mobile Message Content to update and distribute Reputation Data to End User and other Cloudmark customers, and (iii) for compliance with all applicable privacy laws and regulations, including such laws and regulations related to the collection and use of CPNI and other end user personally identifiable information or other data. End User shall indemnify, defend and hold Cloudmark harmless from any claim resulting from End User’s failure to obtain proper end user consent or otherwise comply with applicable privacy laws and regulations, including any claim whatsoever directed at Cloudmark by any of End User’s end user, regulator, or other entity concerning the collection, use, or distribution of the end user CPNI, personally identifiable information, or other data collected by End User through the use of the Software. End User further acknowledges that Cloudmark is only acting as a data processor on behalf of End User, and that the End User is the “data controller” pursuant to EU Directive 95/46 and applicable data protection laws, as may be amended from time to time. Cloudmark is responsible for the use of the Mobile Message Content provided by End User under any applicable law.
Delivery of Micro Updates. As Cloudmark continues to improve the quality of Reputation Data based on information collected from the Software, Cloudmark will provide then-current statistical and algorithmic data on a periodic basis ("Micro Updates") to the Software installed by End User to improve and update the filtering and detection capability of the Software. Micro Updates will be streamed to the Software running on End User’s systems as they become available.

Use of Aggregated Anonymous Data. Cloudmark may aggregate the data collected by the Software with other data, including Reputation Data, so that it is non-personally identifiable with respect to End User or any of End User’s end users ("Aggregated Anonymous Data"). End User acknowledges and agrees that the collection by Cloudmark of Aggregated Anonymous Data is critical to maintaining the functionality of the Software and that Cloudmark is free to use Aggregated Anonymous Data in any manner in order to improve Cloudmark’s products and services.
